

How Incredible is the White Cliffs Mayfair™ Hair system? Almost as Amazing as our Clients...

Case: Sean

Youth Restored

Sean's story is very simple. A young man fed up with wearing a cap, he just wanted his hair back like nature had originally given him. His face is a very youthful one, and framed and complimented with hair brought back his youthful features and smile. Being very active, Sean had to have a hair system that he could wear day in and out, would never get hot/breathed like his own skin, and above all had a totally natural hairline. "After looking all over, I finally found WHITE CLIFFS... I knew this was for me. Toupees and wigs just weren't what I was looking for- I never thought about even looking at them. A WHITE CLIFFS hair system on the other hand is simply the closest thing available (non-surgically), anywhere to getting your real hair back. The whole system and especially the front hairline is simply a technological miracle- it really looks like the hair is growing out of my skin. I feel totally confident in any situation from swimming to showering that it will stay that way. NO one can tell it's not my own, real hair under any circumstances. I am now enjoying life to its fullest and looking how I want to look- I have my hair back like it never went away."
